Filosofi Teras

This book explores ancient Greek-Roman (Stoic) philosophy as a practical tool for developing mental resilience in modern times. It presents Stoic ideas in an accessible way, showing how they can help people cope with stress, anxiety, and everyday challenges through rational and reflective thinking.

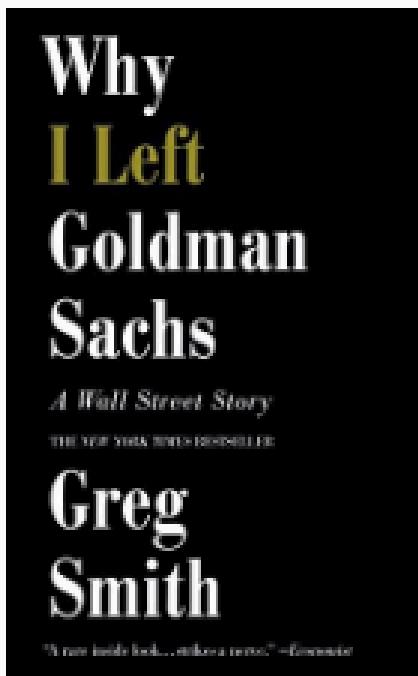

Das Buch – Eine Hommage

Das Buch – Eine Hommage ("The Book – A Tribute") is a literary and visual tribute to the world of books, the experience of reading, and the intimate bond between people and physical books. Combining thoughtful essays with atmospheric illustrations, the book celebrates the printed book as a cultural artifact filled with history, emotion, and memory.
